

# Key Activities & Document Review Schedule

California Water Plan Update 2009

Activities	Description
<b>Strategic Plan</b>	1. Review and revise as needed the vision, mission, and goals of the Water Plan, and update its initiatives, recommendations, and implementation plan. This includes (a) reporting progress on actions associated with Update 2005's 14 recommendations, (b) addressing "Parking Lot" topics from the Update 2005 Advisory Committee, (c) incorporating issues and initiatives from Steering Committee members, (d) updating the Water Plan stakeholder/customer survey, and (e) including strategic planning for statewide flood management.
<b>Scenarios</b>	2. Develop multiple scenarios of future California water conditions, and use scenarios to evaluate different combinations of resource management strategies (called response packages) for a range of water demand and supply assumptions plus climate change.
<b>Climate Change</b>	3. Develop climate change scenarios to evaluate impacts on California's water resources and water systems, and to identify and recommend statewide and regional adaptation strategies.
<b>Regional Reports</b>	4. Update the Regional Reports for the 10 Hydrologic Regions and for the Sacramento-San Joaquin Delta and Mountain Counties as areas of special concern. Use information gained from the Integrated Regional Water Management and local water and flooding efforts to describe critical issues, key initiatives, effectiveness of regional planning efforts, and region-specific response strategies.
<b>Management Strategies &amp; Response Packages</b>	5. Update the 25 Resource Management Strategies with current research and information. Expand strategy narratives to describe their suitability for integrated flood management, new challenges, and their current and future implementation in various regions.
<b>Water Portfolios</b>	6. Estimate and present actual water uses, supplies, and quality (Water Portfolios) for water years 1998 through 2005. Improve methods for representing consumptive and non-consumptive environmental water, and where reuse of water is occurring.
<b>Analytical Tools</b>	7. Improve information exchange and data integration, data, and analytical tools to inform all Water Plan activities and decisions and to assist California water planners and managers.
<b>Companion Plans</b>	8. Incorporate findings and recommendations from companion State government plans

## Key Activities & Document Review Schedule

California Water Plan Update 2009

Key Activities	GROUP NAME Table entries are (Month & Year)	Strategic Plan	Scenarios	Climate Change	Regional Reports	Management Strategies & Response Packages	Water Portfolios	Analytical Tools	Companion Plans
	Advisory Committee	Jun 07 Dec 07 Jun 08 Mar 09	Aug 07 Dec 07 Mar 08	Jun 07 Aug 07 Dec 07 Mar 08		Mar 08 Jun 08 Mar 09		Jun 07 Dec 07	Aug 07 Mar 08 Mar 09
	Regional Workshops (In-Region)	Jul 07	Mar 08		Jul 07 Mar 08	Mar 08	Mar 08		Jul 07
	All-Regions Forum (Alternates North & South CA)		Sep 07 May 08	Sep 07	Sep 07 May 08 Aug 09	Sep 07 May 08	May 08		
	Plenary Meeting		Oct 07	Oct 07		Oct 07			Oct 07
	SWAN Workshop		Sep 07 Nov 07	Nov 07			Sep 07	Sep 07	
	Tribal Water Summit	<i>Dates and Agenda for the Summit are being planned. Findings and recommendations from the Tribal Water Summit will be incorporated in Water Plan Update 2009.</i>							

Document Review	GROUP NAME Table entries are (Month & Year)	Assumptions & Estimates Report	Public Review Draft	Review Comments	Final Update 2009	Process Review & Scope U2013
