

2 temporary gates will become 4 permanent gates to keep water diverted from the Sacramento River from escaping into the San Joaquin River...and oh yes, to keep fish out of the pumps as well.

This map comes from URS for DRMS Phase 2 planning. It was located in Delta Vision support documents & sections cut and paste here. Whole URS draft is at <http://deltaREvision.com> and go to the "Planning Maps" pages, Conveyance section
